Discussion on providing the DOC copies of the new contracts as required by entity. Unless there is an incentive or ESCO management buy in the likelihood is not likely. Pete mentioned that to promote PC within the state it is in the ESCOs best interest. There is mention that many projects have been performed outside the GESP but there are only a handful of projects that have been submitted to the

DOC as required by statute. John Kearney mentioned reluctance by municipal to maintain their own identity and the ESCOs not to publish where they are active. ADD TO OLD BUSINESS IN JANUARY'S MEETING.

Pete asked what the value of the ESC is to members. John Kearney spoke of the history of the EO and the support of the ESCOs and trade unions supporting a GESP to ignite the PC within the state of MN. He mentioned that it was focused on state entities. Stillwater Prison and the project that is PC adverse wasting State dollars. Jon Mool mentioned the big projects that ESCOs needed to band together to crack the nut. Eric mentioned that the City of Minneapolis would be a great example by setting up their Clean Energy Partners Team. Pete asked how to move forward?

Trish mentioned adding to OLD BUSINESS for January meeting so that more ESCO representation is present.
